A **web developer** and former *business professional* seeking to deliver comprehensive digital experiences that delight the user and further her client's objective, by taking a holistic and systematic approach to problem solving.

SOFTWARE PROJECTS

Personal Portfolio - HTML5, CSS3, UX Design, Wireframing

From starting a Design Brief to create personal brand guidelines, mood board, UX tools and low fidelity wireframing that guided my design decisions, this MVP will improve accessibility and incorporate light white hat SEO soon.

Four in a Row — JavaScript / ES6

A JavaScript game built in modules using constructor methods and classes that connects to a provided CSS that creates the board and tokens.

Doggo Select — JavaScript / ES6, Fetch API

MiniBento - Bootstrap Framework
